

Torres Sports Medicine and Toro Athletic Training Room

Torres Sports Medicine strives to promote excellence in healthcare for all Torres High School and visiting student-athletes. This includes the prevention, care, and rehabilitation of athletic injuries as well as helping to direct the nutritional, physiological, and psychological needs of the student-athlete. It is the mission of the Sports Medicine team to continue providing the best care possible. In order to achieve this, every member of the team promotes, actively participates, and educates themselves in the best and latest evidence-based practices.

What is an Athletic Trainer?

Athletic trainers (ATs) are highly qualified, multi-skilled health care professionals who render service or treatment, under the direction of or in collaboration with a physician, in accordance with their education, training and the state's statutes, rules and regulations. As a part of the health care team, services provided by athletic trainers include primary care, injury and illness prevention, wellness promotion and education, emergent care, examination and clinical diagnosis, therapeutic intervention and rehabilitation of injuries and medical conditions. The NATA Code of Ethics states the principles of ethical behavior that should be followed in the practice of athletic training.

Get to know your Athletic Trainer

Christian graduated from Fresno State with a Bachelor's Degree in Athletic Training in 2019. While he was a student at Fresno State, he worked with all sports teams, but most of his time was spent with the Bulldog Football team. He also completed two summer internships, one with the Houston Astros and one with the Oakland Raiders. After graduating, Christian worked with

the Los Angeles Dodgers for a summer internship while living in the Dominican Republic. Then he spent 2 years working at Selma High School before becoming a part of the Toro Sports Medicine Team.
